CAREER OBJECTIVE

Motivated Computer Science undergraduate seeking a technical or operations role in a fast-paced, international organization. Confident communicator in English, Hindi and Kannada, experienced in presenting to judges and working in fast-paced team environments. Quick learner who stays calm under pressure, solves problems on the spot and takes ownership of results. Ready to relocate and start immediately.

EDUCATION

B.Tech, Computer Science Engineering	Oct 2024 – 2028 (Pursuing)
Anjuman Institute of Technology and Management, Bhatkal	
Pre-University (PCMC)	Jun 2022 – Mar 2024
Green Valley International School and Junior College, Shiroor	

KEY STRENGTHS

- **Communication:** Pitched and demonstrated projects to judges and mentors at multiple hackathons; trilingual (English, Hindi, Kannada).
- **Teamwork & Leadership:** Collaborated in teams under tight deadlines; won first place at a college-level hackathon.
- **Problem Solving:** Turn complex problems into working solutions, from fraud detection to real-time data systems.
- **Adaptability:** Learn new tools fast and perform well in unfamiliar, high-pressure situations.

ACHIEVEMENTS & HACKATHONS

Smart India Hackathon (SIH) 2026 – Shortlisted	Digital Safety Hub
• Built a scam-detection platform that analyses text, screenshots and URLs, with a report-and-recovery flow to help victims. • Added email forensics (SPF/DKIM/DMARC checks, header parsing, sender geolocation). Stack: Next.js, TypeScript, Tailwind CSS.	
Winner – Agro AI Hackathon (College Level)	First Place
• Built an advisory platform for farmers: crop disease detection, soil/weather-based advice and live mandi price lookup.	
Razorpay AI Risk Manager Hackathon 2026	Chargeback Evidence Responder
• Built a case-management tool that scores chargeback disputes by win probability; used the Gemini API to draft dispute responses. Stack: Next.js, TypeScript, SQLite.	
Also attended: AI Hack Day Bengaluru; Hackprix Hackathon, Hyderabad.	

PROJECTS

- **Cashlio** – personal finance tracker (Ionic + Angular) with profiles, dashboards and exportable reports.
- **DocuAI** – AI clinical assistant with real-time Gemini API; **IPL Win Predictor** and **Laptop Price Predictor** (ML).

EXPERIENCE

Machine Learning Trainee – My Job Grow (Remote)	Feb 2025 – Apr 2025
• Completed structured training in machine learning and data analysis; applied it through hands-on assignments.	

TECHNICAL SKILLS

Programming: Python, TypeScript, Node.js | **Web/App:** Next.js, Angular, Ionic, REST APIs | **Data:** SQL (MySQL, PostgreSQL, SQLite), Machine Learning | **Other:** Arduino/IoT, Git & GitHub

LANGUAGES

English (fluent) • Hindi • Kannada
